Learning Outcomes:

New Zealand has a very high rate of youth drink driving and just as disturbing is the number of young people who travel as passengers with both peers and trusted adults who are intoxicated.

This competition is based around peer education and action based learning to address this issue.

The competition also, as it is drama and film based around a health and safety message fits in to a number of key curriculum areas such as English, Drama, Film studies, Health and Social Sciences.

This competition is seen as a vehicle for schools to talk openly about these issues and create a forum to support students in making good choices when planning to party.
